

## Digital press kit for Powtech 2016

12.05.2016 Pressemitteilungen|

Cassette filter INFA-MICRON with manifold innovations

Silo filter INFA-JETRON AJP now available in stainless steel

INFA-Lamellen-Jet AJL with new design

New design of cartridge filter Infa-Jetron AJP and now available with secondary filter stage

### **Cassette filter INFA-MICRON with manifold innovations**

The previous design of the MKR already fulfills the demands on operational safety and protection from contamination. Just in time for the Powtech the filter is launched with manifold innovations which bring special values for the pharmaceutical industry in particular. [...]

### **Silo filter INFA-JETRON AJP now available in stainless steel**

Motivated by the strong market resonance, Infastaub has extended the filter series by a new design. All parts in contact with the product and also the clean gas side can be manufactured in stainless steel. This qualifies the filter units in particular for the food, chemical, pharmaceutical and plastics industry. [...]

### **INFA-Lamellen-Jet AJL with new design**

The INFA-Lamellen-Jet AJL is a versatilely usable aspiration filter for separation of dry, non-sticky dusts. Filter units of this series achieve a maximum filter area on minimum space requirements because of their pleated filter elements (filter lamellas). Now the design of the AJL has been refreshed. [...]

### **New design of cartridge filter Infa-Jetron AJP and now available with secondary filter stage**

The popular Infa-Jetron AJP series, designed as standing filter or top filter, has received enhancement. As of now the standing filter is available with a secondary filter stage, too. [...]
