News

Full house and party at POWTECH 2019

15.04.2019 News

Powtech 2019 is over: We can look back on three eventful fair days and draw up a consistently positive conclusion.

Powtech 2019 is over: We can look back on three eventful fair days and draw up a consistently positive conclusion - inspite of overlaps with the simultaneous trade fair BAUMA in Munich.

Beforehand, there were appropriate doubts if the flow of visitors would split between both fairs.

The organisers were very satisfied with altogether 14,200 visitors. The increased number of visitors proves them that the Powtech is the industry event on national and international level for the powder and bulk community. Infastaub achieved a visitor record at the stand, also. We thank all our visitors for that!

The first fair day was completed with a stand party for the first time. A manifold guests followed our invitation according to the motto „50 years fascination filtering technology. The party continues“. And since dust is our daily business, an especially engaged shoe polisher took care of the dust on shoes. In the end he brought back all shoes to a high gloss.

The next Powtech takes place from September 29th till October 1st, 2020 in Nuremberg.
