

## Detailview for term

**name of the term: Air return**

**descriptions of the term:**

### Air return

Air return (air recirculation) during aspiration of fume and gas is a more and more important measurement of energy saving. A concise description of the legal admissibility is found in the VDMA brochure "Luftrückführung bei der Absaugung von Rauch und Staub". Download under [www.vdma.org](http://www.vdma.org)
